

# NSW & QLD Metal Roof Specialists

## Introducing Roof Right

Established in 2013 by a veteran roofer with 30 years' experience, Roof Right is a large-scale metal roofing business based out of Blacktown in Greater Western Sydney.

Our team of 10 roofing specialists gives Roof Right the capacity to complete projects large and small to a high-quality standard. We employ three qualified tradesmen, five hardworking labourers and two talented apprentices.

Renowned for being on time and reliable, Roof Right is a certified Colorbond expert providing a complete range of end-to-end metal roofing services throughout New South Wales and Queensland

**Commercial**

**Major - Residential**

**Government**

# Partnering with Builders, Government and Commercial Clients

Over the years, Roof Right has built strong working relationships with major builders in Sydney and surrounds. Primarily we work on larger government and commercial projects, as well as select residential roofing jobs.

Most of our business is repeat business, which is testament to the quality of our work and the reliability of our team.

We have successfully completed dozens of complex roofing projects for the **Australian Defence Force, NSW Corrective Services, the NSW Department of Education** and a range of **commercial and residential clients**.

# Roof Right Services

As qualified roof plumbers who specialise in modern metal roofing techniques, our team expertly delivers every roofing service under the sun.

We regularly install new Colorbond metal roofs and repair existing roofs on structures such as school buildings, Army barracks, large agricultural sheds, university campuses, industrial warehouses, airport hangars, high-rise commercial buildings, and residential apartment and townhouse complexes.
